

Step up & advance our field!

THE NEED:

How many times have you heard that there is no research in the field of energy psychology and felt helpless to contribute? Here's your chance!

THE OFFER:

Be part of a research study conducted by the University at Albany School of Social Welfare to test the efficacy of EFT after a heart incident. ***We need several clinicians to treat the heart event survivors in this study.***

HOW YOU CAN HELP:

If you meet the criteria below, we want you!

- EFT clinician
- Willing to recruit one-to-five clients that have suffered a traumatic heart event
- Willing to administer six, free, one-hour EFT sessions
- No research or data experience necessary (UAlbany researchers will do all data collection)

**Promo flyers
are ready,
researchers
are ready, all
we need is
YOU!**
